SUMMARY

Fresh graduate in Computer and Network Engineering with a strong passion for frontend development. Experienced in building responsive, clean, and professional web interfaces through internships and freelance projects. Highly attentive to UI/UX details, quick to learn, adaptable, and eager to make meaningful contributions in a collaborative development team.

EDUCATION

SMK Negeri 1 Kediri

Jul 2022 – May 2025

Vocational High School, Computer and Network Engineering

- Built a solid foundation in computer networks while sharpening frontend development skills through internships and freelance projects.
 - Served as Secretary in the Islamic Spiritual Organization (SKI), managing reports and coordinating all organizational activities.
-

-

WORK EXPERIENCE

Front-end Web Developer Intern

Jul 2024 – Nov 2024

ORDOAPPS, Surabaya

- Converted Figma designs into clean, responsive web pages using Laravel Blade and SASS (SCSS) for landing pages and admin dashboards.
- Fixed frontend bugs based on QA feedback and worked closely with designers and backend developers to refine UI/UX for production.

Front-end Developer 2025

Freelance

- Create responsive web interfaces for small businesses, including Point of Sale (POS) desktop applications and admin panels using Laravel Blade and SASS (SCSS).
 - Built multiple landing pages with React.js, TailwindCSS, and Next.js (TypeScript) to sharpen frontend development skills.
 - Refined design mockups into production-ready UIs with a focus on clean, modern styling.
